Practical Ideas

**Interview an adult.
Ask them about
their life.**

**Write their
autobiography.**

Encourage children to ask good questions, identifying the key information and recording notes using bullet points.

**Create a robot
using empty boxes
and bottles.**

Encourage children to see if their robot can include any moveable parts, using mechanisms they may have learnt.

**Bake a cake with
an adult.**

**Cut into eighths and
create equivalent
fractions.**

Once baked, cut into eight equal pieces. Create and describe different fractions. Discuss how different fractions can show the same quantity.

Practical Ideas

**Write a review
based on your
favourite book.**

Classroom
secrets

Encourage children to write a powerful review, using emotive language that would persuade somebody to read the book.

**Measure the
perimeter of each
room**

Classroom
secrets

**Which room has the
greatest perimeter?**

Encourage children to walk around the house and predict which room has the greatest perimeter. Then, measure all sides of each room. Was their prediction correct?

**Go on a hunt for
right angles.**

Classroom
secrets

**How many can you
find?**

Children to explore the house and find different right angles. Children could record their findings by taking photographs or writing a list.
